WORK EXPERIENCE

Crafely May 2025 – Current
Junior Software Engineer

- Developed and maintained the UI of a WooCommerce-based Multivendor POS Website using Vue.js and shadcn/ui, ensuring responsive and scalable design.
- Built an AI-powered automated form builder, improving efficiency and reducing manual input.
- Contributed to an AI-powered Presentation Maker, developing the frontend and integrating AI features for dynamic content generation.
- Designed and implemented AI prompt tools to automate workflows and enhance user experience.
- Collaborated with cross-functional teams following Agile methodology, using Git for version control.

Tech Stack: Vue.js, Nuxt.js, shadcn/ui, Tailwind CSS, JavaScript (ES6+), TypeScript, REST APIs, AI/LLM integration, WooCommerce

PERSONAL PROJECTS

Lost & Found

- An interactive platform for reporting and recovering lost items, built with a sleek UI for seamless user experience.

Tech Stack: Vue.js, Tailwind CSS, Firebase, O-Auth
[Github](#) | [Live Demo](#)

Grocery Store

- A feature-rich e-commerce website tailored for medium-sized grocery businesses, offering an intuitive shopping experience.

Tech Stack: Vue.js, Tailwind CSS,
